EDUCATION

2022 — 2026
BS Software Engineering
COMSATS University

2020 — 2022
Intermediate (ICS)
Superior College

TECHNICAL SKILLS

FRONTEND

React.js Next.js Tailwind CSS

HTML/CSS

BACKEND

Node.js Express.js Python

MOBILE APP

Flutter Dart

DATABASE

MongoDB MySQL Supabase

Firebase

CORE TOOLS

Git & GitHub RESTful APIs

Agile / Scrum DSA

LANGUAGES

English (Fluent)

Urdu (Native)

PROFILE

Software Engineering graduate from COMSATS University with hands-on experience in building full-stack web and mobile applications. Skilled in modern technologies including React, Node.js, and Flutter, with a strong foundation in object-oriented programming and software design principles. Eager to apply technical skills and a problem-solving mindset to contribute to a fast-paced software development team.

WORK EXPERIENCE

Software Engineer Intern JUN 2025 — SEP 2025

Tech Solutions Pvt. Ltd.

- Developed responsive, interactive web interfaces using React.js and Tailwind CSS, improving overall page load speed by 25%.
- Built and integrated robust RESTful APIs with Node.js and Express, cutting data response and latency time by 30%.
- Collaborated closely with a 5-member Agile development team to successfully deliver key features for a client-facing dashboard.

Web & Mobile App Developer JAN 2024 — PRESENT

Freelance Developer

- Designed and developed optimized full-stack websites and native mobile apps for small businesses, significantly boosting client online presence.
- Delivered end-to-end solutions spanning from UI/UX design wireframes to production deployment, managing multiple high-priority projects on tight deadlines.
- Maintained strong professional client communication, resulting in recurring business contracts and high-value project referrals.

Lead Developer — Final Year Project 2023 — 2024

University Tech Society — COMSATS

- Led an engineering team of 3 to conceptualize and build a comprehensive full-stack e-commerce platform incorporating secure user authentication, interactive cart management, and an admin dashboard.
- Presented the completed architectural system to a faculty evaluation panel, earning top marks for engineering innovation and technical execution.
